DESPITE SEVERAL OBJECTIONS, OVERNIGHT CAMPING IS NOW ALLOWED ON HASTINGS DRIVE

7/13/2016 7:54:58 AM

RV's, docks, piers, and wharfs are now officially allowed on Hastings Drive in Long Point.

A major storm knocked down several cottages on the land in 1985 and construction hasn't been allowed on Hastings since.

But after years of debate, our elected officials finally voted to allow camping trailers with holding tanks to stay on the

deemed hazard lands from April 1st until October 31st.

Some councilors were for full development on the Hastings Drive but, through information previously discussed at a closed meeting, our elected officials felt it was best to pull that option from a legal standpoint.

The Health Unit, local emergency officials, the Ministry of Municipal Affairs, and the Long Point Region Conservation Authority asked council to reject the idea due to safety concerns.

There is a 20 day period where this decision could be brought to the Ontario Municipal Board, with councilors advising those on Hastings to wait until this time before making any changes to the land.
